

CORAL REEF

Cast Stone

*Architectural Precast Stone &
Lyte Veneer Cast*

The Look of Beautiful Cast Stone

The elegant look of architectural precast stone, combined with the artistic and innovative approaches by Coral Reef Cast Stone.

Columns, balustrades, fountain features, planters...all add to the beauty of your home, your country club, your balcony or garden

This is the entry to Coral Reef Cast Stone's own garden of beauty, located at our factory and showroom. Come and see our magnificent gazebo.

The Look and Feel of Aged Stone

With special techniques, and use of special Coloring, Coral Reef Cast Stone can give you the look of a stairway that is many years old...or the Mediterranean look of a Spanish Castle, or Italian Villa

The detailed Corbel and Special Cap enhance the importance of a new Club Entry feature...

And,

The entry to a magnificent mansion, utilizes the lovely Corinthian Columns, to capture the eye.

CORAL REEF

Cast Stone

The amazing Lyte Veneer Cast by Coral Reef Cast Stone dramatically shows the use of an extruded cast product which can be used both inside & outside to embellish any home...and give the look and strength of stone to your interior or exterior, in a much lighter weight.
